BOOKING TERMS & CONDITIONS		

PLANNING YOUR AFRICAN ADVENTURE

BOOK WITH AN AGENT YOU CAN TRUST

Booking with an Australian-based agent provides many benefits. Firstly, we provide prices in Australian dollars. This means you don't need to worry about online credit card fraud or unfavourable exchange rates. As an Australian business we comply with Australian business legislation, which means your money and rights are protected. Being local also allows you to plan your African adventure face-to-face with a consultant if you wish.

ONE POINT OF CONTACT

If you book through a travel agent, or directly with This is Africa, all aspects of your travel are coordinated in one place. This makes compiling your holiday much easier, especially to a destination like Africa. If your flights get changed or cancelled, your agent will work on your behalf to adjust your travel components accordingly. Your travel documents, including pre-departure information and vouchers with 24-hour emergency contacts, will also come from one place.

PRICING

Price indications in this brochure are in Australian dollars and are costed on 2025 low season, twin share rates, unless stated otherwise. Due to currency fluctuations, best available prices and online specials, pricing in the travel industry has become very dynamic. This makes accurate pricing in the format of a printed brochure with a shelf life difficult. For an accurate quote based on current exchange rates, your season of travel, passenger numbers and best available prices, contact your travel agent, or This is Africa directly.

GUIDED TOURS & PACKAGES

Itineraries in this brochure are either guided group tours or private packages. Guided group tours depart on scheduled dates and offer a cost-effective way to travel in Africa with others. Group touring removes the need to plan and book individual elements of your trip as most, if not all, components are included. Private packages, on the other hand, can start on any date and may be customised if desired. These pre-designed packages typically include transfers, accommodation, popular activities and breakfast.

TAILOR-MADE ITINERARIES

Tailor-made itineraries allow us to create and customise an itinerary to suit your individual dates, desired destinations, interests and budget. Personalised itineraries may include flights, transfers, accommodation, meals, activities and experiences, which together build a comprehensive itinerary resulting in your perfect African itinerary. Tailor-made itineraries particularly suit travellers with specific travel dates, honeymooners and families.

SELF-DRIVE ITINERARIES

Some parts of southern Africa, in particular along South Africa's Garden Route and in Namibia, are well-suited to self-driving. Both countries drive on the left, the same as Australia and signage is in English. Self-driving offers greater flexibility and independence, allowing you to set your own schedule and pace. Our self-drive itineraries include car hire, a map, GPS coordinates, accommodation, breakfast and your choice of daily activities.

PLANNING YOUR AFRICAN ADVENTURE

RAIL JOURNEYS & RIVER CRUISES

The iconic Blue Train and Rovos Rail train journeys in southern Africa offer five-star travel reminiscent of a bygone era. Journeys include 'off track' activities, such as safaris, golf rounds and cultural and historical experiences. On the water, riverboat cruises on Egypt's Nile river offer a relaxing and scenic way to see the sights around Aswan and Luxor. In Botswana, cruises on the Chobe river provide exceptional water-based game viewing.

FAMILY ITINERARIES

Families are flocking to Africa in recent times, and for good reason! Africa provides a great family holiday unlike anywhere else. With exciting animal sightings, adventure activities, cultural experiences and staff and locals who simply adore children, it's perfect for young and old. Africa is wildlife and culturally rich and a great educator. Many safari lodges offer kids' programs, some offer activity and adventure facilities and most include one or more swimming pools.

ISLAND BEACH BREAKS

A beach stay is the perfect addition to any African safari holiday. Located in the warm Indian Ocean are the popular tropical islands of Zanzibar, Mauritius and Madagascar. Zanzibar's Arabic architecture, slave-trading past and spice farms add another dimension to the tropical island, while Mauritius and Madagascar's French colonial past and, in the case of Madagascar, its endemic lemur population, offer visitors cultural and wildlife diversity that goes beyond their beach vibe reputation.

ONE POINT OF CONTACT

If you're booking directly with This is Africa, all aspects of your travel are coordinated in one place. This makes compiling your itinerary a breeze. There are about 1,000 mountain gorillas living in the volcanic forests of Uganda, Rwanda and the Democratic Republic of Congo. Permits are required to trek the gorillas and small groups, led by park rangers, can spend around an hour observing a troop of gorillas as they go about the daily lives. Our tours include gorilla trekking in Uganda's Bwindi Impenetrable Forest, or Rwanda's Parc National des Volcanoes. Itinerary options also include chimpanzee and golden monkey trekking. Gorilla trekking is undoubtedly a once in a lifetime experience.

BOOK WITH AN AGENT YOU CAN TRUST

High on the list of African adventure seekers is the desire to conquer Tanzania's Mount Kilimanjaro – Africa's highest mountain. More of a trek than a climb, Kili's biggest challenge is its quick ascent, which can cause altitude sickness. Climb packages are typically seven to eight days long (an additional acclimatisation day can be added), which includes a pre and post climb night in Moshi at the base of the mountain. There are several routes to choose from and all treks include guides and porters.

PRICING

Your trip to Africa will bring much needed revenue into the country and contribute to many people's employment and wellbeing. If you want to contribute further to local communities and animal welfare, a simple and effective way is through the international Pack for Purpose initiative (www.packforpurpose.org). Just save a few kilos of space in your suitcase for supplies to assist education, healthcare, child welfare, animal welfare or socioeconomic development and you can make an invaluable impact on the lives of African people and wildlife.

You leave the Rift Valley behind and head south towards Amboseli National Park, bordering Tanzania. With a backdrop of Africa's highest peak, Mount Kilimanjaro, Amboseli offers travellers spectacular views of this African icon across its flat plains. On a clear day, even the worst photographer cannot help but create magical memories, as animals tend to stand still in the foreground framing the mountain behind them. The Maasai people who call the park and its surrounds home, have a close relationship with tourism and often operate, or own, local game lodges and safari camps. The park is also famous for its herds of large 'tusker' elephant, who roam the plains in search of water. Game drives here are spectacular. **Amboseli Sopa Lodge.**

Day 21: Nairobi

After an early breakfast you depart Amboseli. Cross the beautiful Athi Plains, arriving in Kenya's capital city by midday.

This environment is home to the elusive desert elephant, the black rhino and free-roaming antelope species. **Ondjamba Hills.**

Meals are taken under the stars in the outdoor boma, or in the lodge's indoor restaurant. Combine your Sun City hotel with a stay in Pilanesberg National Park or Madikwe Game Reserve, it's your choice.

Pilanesberg National Park: Located literally on the border of the Sun City complex, this park offers a convenient safari location without needing to travel far for 'big five' wildlife viewing. The park consists of over 7000 animals, 360 bird species and more than 200 kilometres of roads. Game drives are ranger-guided on the numerous roads and tracks covering the park. Lodges feature spa treatment centres and family friendly communal areas. The convenience of the park's location makes it easily combinable with its entertainment-based neighbour.

Madikwe Game Reserve: A mere three hours' drive from Sun City, Madikwe Game Reserve is situated on the border with Botswana close to the Kalahari Desert. Covering 750 square kilometres, it is the fifth-largest game reserve in South Africa. Opened 30 years ago as a private reserve catering for lodge guests only, the reserve offers consistently good wildlife viewing without the crowds often found in national parks. Game viewing is conducted in open 4WD vehicles with licensed rangers and trackers. As one of the lesser-known reserves, this hidden gem is regarded as one of the best conservation areas in Africa, offering visitors an exceptional 'Big Five' game safari.

Day 6: Johannesburg

After an early morning game drive and breakfast you are transferred by road to Johannesburg airport or a city hotel.

Itinerary also available in reverse.

Four of them are family suites which are located 700 metres from the main lodge and include their own swimming pool. Game drives and a meal inclusive program are offered at this popular lodge.

MOTSWIRI SAFARI LODGE MADIKWE GAME RESERVE

Motswiri Private Safari Lodge is situated on the western side of the 75 000 hectare, 'Big Five', malaria-free Madikwe Game Reserve. LUSH PRIVATE LODGE PILANESBERG NATIONAL PARK

Well located in the north of the Pilanesberg within the wildlife-rich Black Rhino Reserve, this family-owned lodge affords guests an unhurried safari experience away from day trippers and self-drivers. The five luxurious suites provide an intimate retreat, while the elegant outdoor guest spaces allow the surrounding striking landscapes to take centre stage. Franschoek was built to reflect its early colonial inhabitant's homeland of France. This village is like a small slice of Provence, with French cafés, antique shops and cobblestone laneways bordered by lavender. The friendly, personalised service afforded to every guest is what sets this country house apart.

Day 2: Franschoek

Forming part of the Great Frontier Park, Kruger National Park is an immense 20,000 square kilometres. The park consists of the state-run national park and several land concessions which allow exclusive access to private game lodges. In the mid 1990s the fences which divided the national park and the concessions were removed to allow game to roam freely.

Consequently, the regions of Manyeleti, Timbavati, Thornybush, Klaserie and Sabi Sand all offer excellent game viewing, with the latter generally offering a greater abundance of animals. Several private game reserves which form the Greater Kruger Park are also home to many distinguished game lodges, resulting in a vast range of accommodation options and activities. At these private lodges rangers are permitted to travel off-road and can track animals to within metres of the vehicle. Limited vehicle quotas at animal sightings are commonplace, which results in exclusivity and all but guaranteed quality game viewing.

Accommodation in the Kruger ranges from lodge-style bricks and mortar, to permanent, canvas tented camps with en-suites. Properties cater to the diverse needs of guests, from family-friendly lodges which may offer junior ranger programs, children's cooking classes, playgrounds and multi-bedroom villas, to intimate lodges and camps offering romantic candle-lit dinners and spa baths, perfect for a celebratory occasion and exclusivity.

Included over the following pages is a variety of hand-selected private Kruger properties that offer a range of experiences to suit varying needs and budgets. Many of these lodges and camps offer stay pay, combo and honeymoon deals – ask us for details.

Day 1: Transfer to game lodge, afternoon game drive

On arrival at the nearest Kruger regional airport you are greeted and transferred to your lodge, where you will be briefed on game activities, the daily routine and facilities of the lodge. Lunch or afternoon tea is served prior to your first afternoon game drive.

Most lodges offer the chance to see the 'Big Five' (lion, leopard, elephant, rhino and buffalo) and much more. Your open-sided 4WD game vehicle is guided by a ranger.

Many lodges also use a 'spotter' or 'tracker' to assist the ranger who sit at the front of the 4WD to track animal markings. Dinner is at the lodge, under the stars, or in the traditional Boma.

Days 2-3: Game activities

Your daily routine will generally start with an early morning tea and coffee followed by a three or four hour morning game drive. Animals are often most active at this time of day and spotting wildlife is guaranteed. Mid-way through the safari you will stop for a hot beverage, before returning to the lodge for a hearty breakfast.

After breakfast there is time to enjoy the facilities of the lodge, such as spa treatments or a cooling swim. Mid-afternoon is time for high tea, followed by your afternoon game drive. This is your opportunity to view the interaction between animals as they search for food and a place to rest for the night. You may even spot some fascinating nocturnal animals. Afternoon safaris include a bush stop to enjoy a sundowner drink and snacks, followed by more game viewing before driving back to the lodge after sunset.

Dinner is served in the dining area, under the stars or in the traditional boma area where a barbecue feast is presented. Following dessert and a lively re-cap about the day's wildlife encounters, you may choose to socialise at the bar, or be escorted to your room by your ranger or tracker.

Day 4: Transfer to the nearest regional airport

Enjoy a final early morning game drive prior to breakfast. Then transfer to the nearest Kruger regional airport.

Combine your Kruger private reserve safari with a visit to Victoria Falls or Cape Town. Both destinations are serviced by direct flights from the Kruger. See pages 40-43 and 56-59 for details.

It is not unusual to sit only metres away from large herds of elephants as they graze for their favourite food along the river banks. Predators, giraffe and grazers are also easily seen in this park. In between safaris enjoy lunch at a Chobe lodge. Return to Victoria Falls in the late afternoon.

Dinner tonight is a barbeque buffet accompanied by a cultural dancing, singing and drumming show - a fitting finale to your time in Victoria Falls. Enjoy Zimbabwean cuisine and celebrate the richness of Africa's heritage with fine fare, unmatched hospitality and thrilling entertainment.

Named after the region's distinctive tribal group, Samburu was made famous by the best-selling book and movie, 'Born Free'. Unlike many of Kenya's parks, Samburu has an arid, desert-like landscape with rocky outcrops and stone kopjes, providing perfect viewing platforms for lion and leopard. The game viewing here is excellent year round and is not as rushed as some other reserves. **Samburu Simba Lodge.**

Day 3: Aberdare

We drive to the mountains of the Aberdare where we view wildlife from the lodge's balcony, floodlit at night. Look out for elephant, rhino, leopard, bushbuck and occasionally the elusive bongo or giant forest hog. Resembling and named after Noah's Ark, The Ark comprises of three decks from which numerous balconies and lounges provide superb vantage points for game viewing. **The Ark Lodge.**

Day 4: Lake Nakuru National Park

Heading west we stop to visit Kenya's famed soda lakes. At Lake Nakuru we enjoy a game drive. The park is home to several rare and endangered species of mammal. These include the Rothschild's giraffe and both black and white rhino, with the park now home to the largest population of black rhino in east Africa. **Lake Nakuru Lodge.**

Days 5-6: Masai Mara National Reserve

We continue west to the Masai Mara. Game drives in the reserve are taken both morning and late afternoon when predators, including the reserve's Masai lion prides, are most active. Famed as one of the top game parks in the world, the Masai Mara Game Reserve is a highlight of any visit to Kenya. Up to 1.5 million zebra and wildebeest call 'the Mara' home between July and October during the great migration.

The camp is situated right in the centre of their migration path, affording guests a wildlife safari which puts you right in the middle of all this action. The rolling plains around the camp are teeming with animals during the migration months. **Mara Sopa Lodge.**

Day 7: Lake Naivasha

Today after breakfast either return to Nairobi where your seven day safari ends, or continue onto Lake Naivasha, a fresh water lake where you can enjoy a boat ride. The shores of the lake are covered in papyrus and other forest plants, which attracts many swamp bird species, such as weaver birds, ducks, African fish eagles, flamingo and African spoonbills. Around 100 species of grazers and hunters also occupy the park. **Lake Naivasha Sopa Lodge.**

Days 8-9: Amboseli National Park

Travel to your next lodge set on 200 acres of private land on the foothills of Mount Kilimanjaro, Africa's highest peak. Each room has its own private veranda on which to relax, sunbathe and take in the views. Game drives are taken within the national park and with Mount Kilimanjaro as a backdrop, Amboseli offers travellers spectacular views of this African icon from its flat plains. Amboseli is also famous for its herds of large 'tusker' elephants, which roam the plains in search of water. **Amboseli Sopa Lodge.**

Day 10: Lake Manyara National Park

This morning either end your safari and return to Nairobi, or continue into Tanzania, where you take a game drive in Lake Manyara National Park. The park's location is spectacular as it lies within the Great Rift Valley. This large lake and its surrounds is an ornithologist's dream, with over 300 species of bird listed in the region, including a healthy population of flamingo.

The alkaline grasslands that surround the lake also attract a variety of grazers such as zebra, wildebeest and buffalo, along with predators. **Marera Valley Lodge.**

Days 11-12: Serengeti National Park

Heading west, we enter the Serengeti National Park with game drives a highlight during our stay. Since David Attenborough first stepped onto our screens, the Serengeti has hosted numerous legendary wildlife documentaries, and for good reason. Few places in the world say 'safari' more than the Serengeti. Its vast flat prairies make game viewing easy as animals have few places to hide.

The park's massive ecosystem covers approximately 30,000 square kilometres. Each year the migration begins in the Ngorongoro Conservation Area of the southern Serengeti and loops through the Serengeti National Park and north towards the Masai Mara National Reserve. Having depleted the Masai Mara of its grass, the animals continue their migration south back into Tanzania. This movement normally starts in October and finishes in December.

In February and March the calving season begins in central eastern Serengeti, with nearly half a million calves born. Depending on the rains, towards the end of April the herds begin to move north west to the central Seronera and Grumeti River regions of the park, before splitting to move north into the north of the park and finally across the border into Kenya.

Game drives are taken as full day or morning and afternoon dependent on animal sightings, with meals taken back at the lodge, or lunch enjoyed as a bush lunch under one of the many flat topped acacia trees, which dot the park. **Pamoja Serengeti Camp.**

Day 13: Ngorongoro Crater

We game drive as we continue to the Ngorongoro Crater. On arrival we descend into the caldera for the rest of the day.

Facts such as; the largest inactive volcano and the biggest intact caldera in the world offer an insight into this natural phenomenon. Residing within the crater are over 25,000 animals, including large herds of zebra, buffalo and wildebeest. Rhino, hippo and elephant are the mainstay of the larger mammals with some Masai lion prides spending their entire lives within the crater. **Acacia Farm House.**

Day 14: Kilimanjaro airport

Following breakfast this morning we make our way to Arusha or Kilimanjaro airport where your safari concludes.

Combine this safari with a stay on the spice island of Zanzibar. Spend several days soaking up the sun and relaxing after your East African safari. High on the list of African adventure seekers is the desire to conquer the renowned Mt Kilimanjaro, which soars to 5,895 metres. More of a trek than a climb, Kili proves a challenge for many as the ascent section is fairly quick and can cause altitude sickness. Most climb packages are seven to eight days in length with a night either side of the trek in the town of Moshi. Packages can start and finish at either Arusha or Kilimanjaro airport, by adding transfers for Moshi. There are a number of routes to choose from, with huts or camping accommodation and all treks include guides and porters. The best time to climb is between July and September as the view is clearest. You can also add an extra day to assist with acclimatisation.

RONGAI ROUTE - 8 DAYS

Price from \$5,270

Climbs depart: daily

Avoiding the more crowded routes, the Rongai is the only route to approach the mountain from the north, close to the Kenyan border. Although gaining in popularity, it still has low traffic. It is the preferred route for those looking for a more remote hike as it passes through true wilderness on ascent. It is also popular with those climbing during the rainy season.

As a less difficult route, it is recommended for those with less trekking experience. Experienced guides consider this ascent to be both easier and 'less trodden' than the main Marangu trail which it follows only upon descent.

MACHAME ROUTE - 8 DAYS

Price from \$5,170

Climbs depart: daily

Nicknamed the 'Whisky Route', over 30 percent of climbers choose the Machame route. It is the only route where you camp throughout the climb, rather than stay in huts. This is seen by many as an added adventure.

The route begins from the south, before heading east. It then traverses underneath Kilimanjaro's southern ice field prior to reaching the summit. The Machame route offers extensive views and is thought to be one of the more scenic paths.

A great advantage is that the first few days are the main elevation walking days, thus easing the altitude stress over the following days and preceding the final push to the summit. The trekking days are longer than some other routes and the inclines are steeper. It is better suited to more adventurous people and those with some hiking experience.

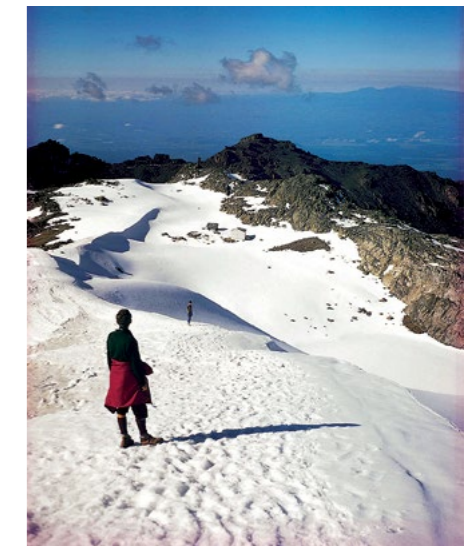

LEMOSHO ROUTE - 9 DAYS

Price from \$6,100

Climbs depart: daily

Lemosho is a newer route and is considered one of the most beautiful, with panoramic vistas on various sides of the mountain. It is considered high difficulty and gives maximum possible acclimatisation. It approaches the mountain through forest and moorland from the west, crossing the caldera of the Shira volcano and exploring the rock formations of the plateau, before traversing beneath the southern icefields of Kibo. It provides the best views of Kibo in the sharp light of morning and early evening.

This route provides the time to enjoy the unspoilt wilderness of Shira Plateau. There is low traffic until the route joins the Machame route for the ascent.

MARANGU ROUTE - 7 DAYS

Price from \$4,180

Climbs depart: daily

The classic Marangu route is the most well-established and is considered the easiest path to the summit, consequently it is used by almost 50 percent of all climbers. Nicknamed the 'Coca-Cola route', it consists of a gradual slope. The ascent and descent are done on the same path, so it can be crowded. It is suitable for those adventurers who are not particularly experienced in the mountains. It uses comfortable, dormitory-style mountain huts with solar power lighting.

The real highlight is the walk from Gillman's Point along the crater rim to Uhuru Peak, passing close to the spectacular glaciers and ice cliffs that occupy most of the summit area. Also the view as the sun rises behind Mawenzi on a clear morning views are absolutely magnificent.

NORTHERN CIRCUIT ROUTE - 10 DAYS

Price from \$7,160

Climbs depart: daily

The Northern Circuit is the newest of the established routes to climb Kilimanjaro. It is also the longest route on the mountain and the only route that allows you to see Mount Kilimanjaro from all four sides. This trail offers good acclimatization without very challenging daily transitions. However, if you don't have experience with long hiking trips, the 8-day journey may be more fatiguing compared to shorter itineraries.

Kilimanjaro Northern Circuit stands out as a route with a great acclimatization profile, breathtaking views, and off-the-beaten-path trails. It is less frequented for climbing Kilimanjaro and can offer a more private climb without crowds.

Combine your Kili climb with a 4WD safari visiting the iconic wildlife parks of Tanzania. See pages 72-73 and 80 for suggested itineraries.

Although a safari in the iconic parks of the Masai Mara and the Serengeti is the main reason for visiting Kenya and Tanzania, there is more to the region than just going on safari. Consider spending an extra day or two in Nairobi to visit a wildlife shelter that rescues orphaned infant elephants and rhinos. Or visit a giraffe centre with a breeding program to return Rothschild giraffes to the wild. For some colonial history, visit Karen Blixen's homestead and museum, where the movie 'Out of Africa' was filmed. Or, for the perfect finale to your safari, stay on the spice island of Zanzibar. The island's Stone Town has a fascinating history as a major trading port, but the main attraction is its many resorts. Stroll the white sandy beaches, float in the warm Indian Ocean, sip on a tropical cocktail, it really would be a shame not to!
